

Homes and Mold

Homes and Molds

The EPA publication, **A Brief Guide to Mold, Moisture, and Your Home** provides information and guidance for homeowners and renters on how to clean up residential mold problems and how to prevent mold growth.

Biological Pollutants in Your Home - This document explains indoor biological pollution, health effects of biological pollutants, and how to control their growth and buildup. Moisture control is the key to mold control. One third to one half of all structures has damp conditions that may encourage development of pollutants such as molds and bacteria, which can cause allergic reactions including asthma and spread infectious diseases.
